Seek Sabotage in \$15 Million Blast

Brooklyn Pier Destroyed; 10 **Persons Killed**

400 Are Injured; **Question Seamen About Phone Call**

NEW YORK (U.P.) - Federal and local authorities searched for evidence of sabotage today in the flaming wake of a \$15 million Brooklyn waterfront explosion which destroyed the city's largest pier, killed at least 10 persons and injured some 400 others.

Two seamen were questioned about a mysterious telephone call made before the blast.

Fireboats and hundreds of firemen still fought the blaze this morning more than 12 hours after it broke out on the Luckenbach Steamship Line pier about 3:15 p. m. EST Monday. The fire was officially reported under control at 6:42 p. m. Monday night.

Fire Commissioner Edward F. Cavanaugh Jr. described the disaster as the "worst fire in the history of New York Harbor." He said he thought the bomb-like explosion was too tremendous to result from even the highly flammable cargo stored on the pier. Receive Anonymous Call

FBI agents, Navy intelligence men, police detectives and fire department officials joined in an allout, "scientific" investigation of the possibility of sabotage.

One important lead was an anonymous telephone call received by the New York Times two hours before the fire. A male voice prom-

State Department Calls for Rapid Clearing of Canal

WASHINGTON (P- The United States pressed today for speedy solution of the "underlying Middle East problems" and clearing of the blocked Suez Canal.

The two points emerged as the new immediate goals of U.S. policy in the Middle East now that Britain and France have ordered swift withdrawal of their troops.

The State Department, in a statement welcoming the Anglo-French move, called on "all members of the U. N. to insure that the remaining issues are dealt with justly and promptly.'

The statement, approved by President Eisenhower and Secretary of State John Foster Dulles. called for "a permanent settlement" of the "persistent conflicts which have plagued the Middle East over recent years."

The United States said rapid 'clearance of the canal becomes imperative.'

"Every day of delay in restoring the canal to normal use is a breach of the 1888 treaty and a wrong to the large number of nations throughout the world whose economies depend so heavily on its reliable operations," the United States said.

The statement amounted to an indirect warning to Egypt to start fused to begin the job as long as British and French forces remain

"The U. N. and the interested states should, we believe, promptly direct their attention to the underlying Middle East problem," the United States said.

NEA Lists Education Needs

WASHINGTON (P) - The National Education Assn. said today the United States must build 328 classrooms and hire 493 teachers each day for the next year to fill present education needs. The NEA said a survey in

October showed that public school enrollment was up 1,197,000 over last year. There are now 32,338688 children in public schools, it said.

To catch up with this upward surge in enrollments, the association said, 180,000 qualified teachers and 120,000 new classrooms are needed.

It also said: At least 840,000 pupils are deprived of full-time schooling by hal day or other part-time arrangements.

Approximately 80,000 teachers employed by school systems are not fully qualified for standard teaching certificates. Another subject the report cov-

ered was teachers' pay. The NEA said the average teacher's salary is now \$4,025 for elementary teachers and \$4,560 for high school teachers.

However, it said that despite an overall increase in pay, some 71, oor teachers are being paid less than \$2.500 a year. It said seven states reported more than 25 per cent of their teachers in that salary range.

Air Force Rules 12:00—Walter Cronkite News, CBS Bingo Not Gambling

WASHINGTON (U.P.) - The Air Force has ruled that the playing of bingo for prizes and cash at its installations is not gambling.

It said it will permit bingo at its service clubs because the game is "a form of social entertainment and recreation." Furthermore, it will allow cash prizes to be given in bingo games as long as they do not exceed \$300.

The Air Force policy was set forth in a new regulation covering the activities of service clubs for enlisted men and their families.

The regulation continues the ban. laid down by the Defense Department before the Korean War, on gambling or gambling devices, such as slot machines, in either servicemen or officer clubs. But it draws a distinction between gambling and bingo.

CONSTIPATED?

New laxative discovery un-locks bowel blocks without gag, bloat or gripe

Constipation is caused by what doctors call a "thrifty" colon that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body.

To regain normal regularity, the dry, shrunken, constipating contents of your colon which now block your bowel must be remoistened. Second, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it to action; to a normal urge to purge. Only a bulk laxative can 1) remoisten this dry, shrunken waste and 2) supply vital bulk to recreate a normal

urge to purge. And, of all bulk laxatives, COLONAID, the new laxative discovery relieves even chronic con stipation overnight, yet is so smooth, so gentle it has proved safe even for women in critical stages of pregnancy. Superior to old style bulk, salt or drug laxatives, COLONAID neither gags, bloats nor gripes; won't interfere with absorption of vitamins and other valuable food nutrients; in clinical tests, did not cause rash or other reacti It's a physiological fact: Exercise tones your body!
